CFD4NRS-10

**The 10th Workshop on Computational Fluid
Dynamics for Nuclear Reactor Safety Issues**

SPONSORSHIP PROSPECTUS

April 2025

WELCOME TO CFD4NRS-10 !!

The Workshop of Computational Fluid Dynamics for Nuclear Reactor Safety is held first time in Japan as CFD4NRS-10 after the 9th workshop in Texas A&M, CFD4NRS-9 in USA, and is hosted in Mito City, a cozy town 100 km northeast of Tokyo, by Nuclear Safety Research Center, Japan Atomic Energy Agency (JAEA).

Since the inauguration of the CFD4NRS in 2006, a biennial CFD4NRS workshop series has been held as part of the activities of WGAMA¹. CFD4NRS is one of the world's most comprehensive technical conferences focusing on the areas of computational fluid dynamics (CFD) and its applications to nuclear reactor safety.

The workshop is aimed at providing an international forum for engineers and researchers from various countries and organizations who are active in the CFD and nuclear reactor safety to discuss and exchange ideas for the solutions of technical problems, to be invited to participate in Benchmark exercises, while promoting collaborative work. The CFD4NRS series has been successful in keeping the meeting participants abreast of the most updated status of their fields and alerted to future challenges and opportunities by examining the present and likely future directions of the areas of endeavor. I take note here that a CFD4NRS tradition has thus been established and is perpetuated thanks to you all.

Thank you for attending this important workshop. I am quite certain that you will benefit from the attendance, along with great opportunities to CFD4NRS network with industry pioneers and leading researchers. I sincerely hope you enjoy the workshop.

General Chair, CFD4NRS-10

Hisashi Ninokata, Dr. Eng.

Professor Emeritus, Tokyo Institute of Technology

Visiting Professor, Polytechnic University of Milan

¹ The Working Group on the Analysis and Management of Accidents (WGAMA) addresses NEA activities related to potential design-basis and beyond design-basis accidents in nuclear reactors and related technologies. The WGAMA reports to the Committee on the Safety of Nuclear Installations (CSNI) and assists the Committee with its work.

OUTLINE OF CFD4NRS

CONTENTS

- ◇ Presentations on various topics
Multiphase flow, Design and plant application, Computational methods, Experimental studies, Severe accident, Verification and validation, Conjugate heat transfer, Turbulence modeling, Multiphysics, Liquid metal, ...
- ◇ Technical tour (visit to nuclear facilities)
- ◇ Communication (lunch, tea ceremony, banquet, ...)

HISTORY OF CFD4NRS

The workshop has been held every 2 years for about 20 years.

- ◇ **Company logo on sponsor page in the program book:** Your company logo will be recognized as that of a Platinum Sponsor in the workshop program book.
- ◇ **Company logo and official website link on the workshop website:** Your company logo will be displayed as a sponsor on the CFD4NRS-10 workshop website, along with a link to your official website.
- ◇ **Including promotional materials in workshop bags or displaying them at the venue:** You will be asked to prepare the promotional materials and send them to the designated address before the workshop. The workshop secretariat will insert the materials and other related items into the workshop bags.

PAYMENT AND APPLICATION

HOW TO APPLY

Please fill in the Sponsorship application form on the following page and send it to the Secretariat Office of CFD4NRS-10 by e-mail.

E-mail: info@cf4nrs-10.org

Application Deadline: September 30, 2025, 17:00 (JST)

PAYMENT METHOD

An invoice will be issued from the Secretariat within 5 business days after receipt of the application form. All payment must be made in Japanese Yen.

* All bank transfer charges (including intermediary bank and beneficiary bank's charges) must be covered by the remitter. In case the transfer charges have been deducted upon receipt of the sponsorship fee, you will be asked to remit the balance.

CANCELLATION POLICY

Cancellation or changes to your original application must be submitted in writing to the workshop secretariat.

For cancellation made:

- After issuing the invoice until August 2, 2025: cancellation fee equal to 30% of the sponsorship fee
- After August 3, 2025: cancellation fee equal to 50% of the sponsorship fee
- After October 1, 2025: cancellation fee equal to 100% of the sponsorship fee

* Remittance charge shall be deducted from the refund.
